EDUCATION

Higher School of Economics, Bachelor, Moscow, 2017–Current
Faculty of Computer Science, Applied Mathematics and Information Science
specialization Distributed Systems

EXPERIENCE

Yandex Technologies, Intership, Backend, Moscow, April 2021–Current
Working at Yandex.Maps, Developing algorithms for 3d panoramas.
C++, Java, Android, OpenCV

Yandex Technologies, Intership, Backend, Moscow, 2019
Worked on automating the assembly of packages for C++ using Nix Expression Language.
C++, Python, Nix

Association of Olympiad Winners, Teacher, 2020–Current
Taught Olympiad programming.

ACHIEVMENTS

- Third Award of The ACM ICPC 2020 Moscow Regional Contest 15 November 2020
- Individual olympiad in informatics and programming, 3rd diploma, 2016
- Individual olympiad in information technologies, 2nd diploma, 2016
- Russian Team National olympiad in informatics and programming, 2nd diploma, 2015
- Russian National olympiad in informatics, Participant of the final stage, 2015, 2016

PROJECTS

Pomodoro, 2021
- Developing a console timer Pomodoro.
  Writing java code in a team.

PathPlanning, 2019
- Worked on PathPlanning.
  Using Dijkstra, A* and heuristics.

SKILLS

- **Programming languages:** C/C++, Assembler, Python, Java/Android(basic level)
- **Technologies:** bash, git, latex
- **Theory:** Data Structures and Algorithms

ADDITIONALLY

- Participated in the hackathon 4 days before the deadline
- Individual coach in olympiad programming, profile on profi.ru: GlushkovIV4
- Profile on codeforces: igor.glushkov
